## XTENDED.DANCE

Thomas Donovan Pumps Up the Love...

XTENDED.DANCE – Thomas Donovan’s latest release is an electronica dance album evocative of ancient dance rituals around the globe.

“Dreaming of another world...” with these words Thomas Donovan invites us to experience a trance dream in the lead track Pump Up The Love, the first single released from XTENDED.DANCE. The digital-dynamo compels the listener to alter one’s reality with quantum ideology. Pump Up The Love–The Video is a digital adventure into a labyrinth of thought extending from the depths of the oceans to the outer reaches of galaxies. “Pump Up the Love is a lyrical answer to the questions raised by such movies as What the Bleep!?! and The Secret – “the power of creation starts in your mind,” states Donovan.

Extended dance and remix versions of Donovan's hits Calling Around the World, Total Controller and Trapped are featured on the album, as well as a UK Dance Remix of Colour by North Ireland's talented remix producer Micky Dodds. Donovan's signature edgy electronica sound is skillfully fused with luscious pop melodies throughout. The high-energy tracks appeal to an international audience with an inclination for modern techno dance vibes. So, take a listen, then bust out the moves.

---

XTENDED.DANCE is an uplifting coda to Thomas’ 2007 release Calling Around the World as featured on MuchMusic. The title track is a digital trance journey inspired by concern for environmental issues and the greater human condition. The electrifying video delivers his compelling message with dynamic satellite imagery and skeletal animations – a high-tech audio/visual call to action.

Thomas Donovan is an independent electronica digital recording artist from Vancouver, Canada. He is a multi-faceted artist who composes, sings, arranges, plays and produces his own music. To date, his mini-label Digital Dreams Music has released four full album CD’s, a selection of 12” singles and several music videos. Thomas’ music career has produced 21 radio hits that continue to generate airplay across North America, Europe, and abroad.
